The case stands somewhat different as it regards charge to the owners of the adjacent lands. Eighteen THE ANTHRACITE COALS. This species of coal is sup- of these are already constructed, or in progress of posed to constitute the great bulk of the coals on construction, by the Navigation Company of Deep Deep River. The market for this coal is not to the River. SUCH ARE THE PROSPECTS OF THE VALLEY OF South, but to New York, and the New England DEEP RIVER. And, in v.sw of them, can the most States. To enable the mine owners on Deep River skeptical doubt of the Magnificent Future of that to compete with the arthracites of Pennsylvania, favored region ? Or that the progress of population (which are the anthracites of any amount in the U. and improvement will advance with a more RAPID States) they must be able to place their coal at New PACE than it has ever done in Pennsylvania? Should York at as low a price as the anthracites of Penn- foreign capitalists hereafter be induced to associate sylvania. It is a saying, in England, when a per- with your people in developing the treasures of Deep son sends his goods to a market, which produces an River, in coal, iron, and other minerals, the present abundance of goods of a similar character, that he holders of the land will part with their interests uphas "sent his coal to Newcastle," which, as you know, on a full knowledge of their value; and the capital is the chief mart of the great mining District of Eng- that may find its way hither from other regions will land. Pennsylvania is the great mining region of form part of that fund which is to contribute to the the Atlantic States, the Newcastle of America, and support of your State Government; and the laborers, New York is contiguous to her. Their territories mechanics, and tradesmen who may accompany or join. Their capitals are less than one hundred miles follow it, will mingle with your people, become idenapart, and coal can be transported from the former tified with your interests, and add to the wealth, to the latter city at sixty cents per ton. The ques- population, and strength of your native State. tion then recurs, can we send the coals of Deep River to the vicinity of Newcastle ? to New York ? Upon an accurate calculation, made by intelligent and practical men, I am assured that the Anthracite forwarded a beautiful stone from the Alps, to be COAL of Deep River may be placed alongside of the placed in the National Monument to WASHINGTON. Pennsylvania anthracites in New York market, and exempted from the onerous tax of pilotage, to which tion in the Cuban Invasion under Lopez, which has sold on as favorable terms, provided the former are they are now liable. The coal which go from Penn- been progressing in New Orleans for some time past, sylvania to New York, pass through the Morris and was closed last week. The Jury were unable to a-Raritan canals, and are not subjected to fees for pilotage. The coals which pass down the Delaware and Hudson canal, to New York, are also exempt from any charge of pilotage. Vessels coming into the Delaware River to load with coal, are also ex- scribed, and it is believed that, before the end of the Cape Fear, over either bar, and going up to Wil- year, the four will be running. Two will be Engmington, amount, upon a vessel of one hundred tons lish, and two American built. burthen, to about forty dollars, which is a tax of 40 cents upon each ton of coal she may carry. If this tax is laid upon the coals of Deep River, they will enable them to compete with the coals of Pennsylvania. A tax of forty cents a ton upon a million of tons would amount to four hundred thousand dollars, and is a greater profit than any mining Company has ever made, or can hope to make. The boast that and of course paying toll. the Slack Water improvement of Cape Fear and Deep Rivers affords a cheaper transit to the ocean than any other improvement, in this country, of the same length tolls greater than on the Chesapeake and Ohio canals, or on any one of the Pennsylvania canals. what Maryland and Pennsylvania have done to fosas to the course which North Carolina will pursue regarding her great interests. That you may have an adequate impression of the value in which the held in these Commonwealths. I will briefly state what each has done for their advancement.

to open a path to the ocean for the coal of the Cumberland mountains. In Pennsylvania, since the year is no nearer quiet than before. 1821, more than 600 miles of canal and 450 miles of Silver is beginning to flow back into England, and coal trade, and at an expense of more than thirty-eight millions of dollars. The results have shown the wisdom of those gigantic expenditures. That as tion of gold and appreciation of silver. great results will follow from the development of the Coal mines of Deep River, no well regulated mind can doubt. It is a law of philosophy, that similar we ventured some remarks, a few days ago, in recauses will produce similar effects, and I am yet to ference to possible improvements in steamers. We south as well as to the north of Mason & Dixon's have been made, in Scotland, in the construction of line. If, in Pennsylvania, cities have sprung up, fast sailing vessels. under the influence of the coal trade, with a suddenness that reminds one of the fable in the Arabian tation of building the swiftest clippers in the world .-

dred and fifty thousand tons. A greater amount can England, happening to see one of these Aberdeen-built be sent from Deep River in two years from the open- schooners, induced some London ship owners to have ing of her navigation. It was twenty-two years be- a craft constructed after that pattern, and sent out to fore Pennsylvania had sent to market in any one China: with what result, we have seen. year a million of tons. Deep River can send that amount within five years. If capital and enterprize and, as it gives the names of the vessels beaten, it must will do for North Carolina what they have done for have considerable truth in it. The first Aberdeen-built Pennsylvania, then will the future progress of North Carolina be more rapid than has been the past progress of Pennsylvania. In Pennsylvania the soil and gress of Pennsylvania. In Pennsylvania the soil and climate are against her, in North Carolina they are

From the Richmond Daily Dispatch: Something about Bachelors. BY THE BACHELOR OF THE CONCERN.

The present age begins already to be distinguished by a sort of rabid fury against those unoffending nominated old Bachellors. The very eccentric gen- Seed, desirable for the planter, farmer, or gardener. tleman from Accomac leads the van in this war of ALSO-Guano, Bone Dust, Poudrette, Plaster, &c. extermination, and he has a mighty host following close at his heels. Dogs and old bachelors seem to tural Warehouse and Seed Store, 189 and 191 Water-street stand about even in the estimation of these philanthropists, and both of them seem, according to them, to be fair subjects of oppressive taxation. We do not mean to scan the motives of these worthy gentlemen too closely. It may be that they are actuated; in the majority of instances, by genuine love of their fellow beings. Having themselves paid obedience to the Divine precept, "increase, multiply, and replenish the earth," they are doubtless desirous to see Miss CELESTIA ROBINSON, both of Clinton. all their neighbors go "and do likewise." Some of In Wayne county, on the 21st inst., by the Rev. Cuaris them being very happy in the state of double blessedness, wish, perhaps, to extend the blessing to all the
children of Adam. It is barely possible, in the meanchildren of Adam. It is barely possible, in the meantime, that there are others who resemble the fox who had his tail cut off by a steel trap, and who, not liking John R. McInton, Hector McNent, M. D., of Clico, S. to appear singular, invited all his companions to S. to Miss Elizabeth H. Jewett, daughter of Mr. Samuel. submit to a similar dismemberment, in order that the ancient family of Reynard might appear in uniform as it had done time whereof the memory of man runneth not to the contrary. Whatever may be the moving cause-whether it be any one of those we have named, or all of them combined—certain it is Neill, Sen'i, a native of Kincefordale, Argyleshire, Scotthat a disposition exists, to a very alarming extent, land. He emigrated to this country in 1792, and settled in to invade the ancient and quiet haunts of the frater- Robeson. nity, and we feel bound, as one of the members, to sound the alarm in time, lest it be too late before we are a are of it. We say, therefore, to every man who loves his sober pipe, and his quiet fireside-who prefers his own thoughts in the solitude of his own mongst reporters, and when it was the fashion to servants' hall—who loves to go out when he thinks now past due; the receipts of Turpentine at Wilmington. heighten these by full potations it was not surprising proper, and to come in when it suits his convenience, at last accounts, were light, and the Neuse river had again LIQUORS, per gallon. ordinary notice. One by-gone worthy, distinguished tain lectures before his eyes--who wishes to continue in this way - Mark Supple it was - whose name has master of his own time, and to indulge, without let found a place in all the jest books for a feat which or dindrance in his own peculiar whims—to all such Peter Finnerty, another spirit of kindred quality, we say, in the language of Milton's "Archangel used to tell after the following fashion: Mark Sup-"Awake! arise! or be forever fallen."

It is strange, but it is nevertheless true, that those

he take a leap in the dark? Must he run the risk 9c. per lb. Fresh Pork 54c. Sweet Potatoes 40 to 50c. per One evening as he sat at his post in the gallery, which every true bachelor shudders even to comtem-

> There is no bachelor, at least we never saw one. who would not marry if he could : that is, who would have him. But there lies the rub. In the majority as well cry for a piece of the green cheese which it jan. 23is said the moon is made of. Well, what is he to do? J. Banks. Is he to go and marry somebody that he does not

care the paring of his nails for, merely to say that he is married ? As far as our observation has extended, nothing can be more fatal to any man's matrimonial hopes than to let the lady suspect that his understanding is three degrees removed from idiocy. At least we are sure the most consummate folly we have ever beard uttered by created man, has come from the least we county, to John C. Latta; with 38 bales N. C. hay, 5 bales mouths of those who are professedly admirers of the ladies, and confessedly admired by them. These descriptions of men, it appears to us, pay a sort of com-pliment to the fair sex in addressing these as they do, which, if they possessed half the tact they have credit for, they could not fail to understand. Their looks say as plainly as words could speak it, " Madam, I know you are a fool, and I mean to adhere to hhds. sugar. the maxim of Solomon, and treat you according to your folly." They but follow the imperative command of Nature herself, for the favorites of the ladies rarely blunder into anything like sense. Such, at least, has been our observation, which we thank Heaven, has been quite limited. We are disposed to think the talk about the superior sagacity of woman, is all gammon; at least we are sure none of them ever discovered our astonishing merits.

If Mr. Wise and his fellow laborers will find a suitable match for the Bachelor of the Dispatch, he Brother & Co.; with 250 sacks salt. has no sort of objection to becoming a Benedict, prohas no sort of objection to becoming a Benedict, provided they will do the courting. But as for marrying any sort of a somebody why they may tax and Schr. R. W. Brown, Hale, from New York, to DeRosset ing any sort of a somebody, why they may tax and & Brown; with mdze. to sundry persons. -. We will go to gaol first.

Lerow & Blodgett's Patent Rotary Sewing Machine. THIS Machine will perform fine stitching, at the rate of one yard per minute, either for curved or straight work, and in making any sort of a garment. For Tailors it is in-deed invaluable; and for Cap Makers, Carpet Bag, Grain, and Salt Bag, and Upholstery Manufacturers, it defies com-petition. Also, for Gloves and Fancy Sewing. One machine will perform the work of ten girls hand labor. Six silver medals have been awarded this machine, in the Fairs of Boston, New York, Philadelphia, Albany, Balti² more, and New Hampshire. It was patented the 2d day of October, 1849, and there are naval stores.

now in actual operation over two hundred of these machines. making Clothing. Caps. Bags. &c. &c.

Messrs. Wm. E. Whiting & Co., No. 124 Pearl-street,
New York, in six months, and with twenty-four machines,
made \$60,000 worth of Caps alone! made \$60,000 worth of Caps alone!

British Colonies, also in France and Belgium. An association of gentlemen in this town having purchased the Patent Right for this State of the above named Sewing Machine, and desiring to become fully acquainted with its perations and merits, appointed one of their number, Mr. S. P. Polley, (a well known and practical machinisi,) to visit. New York for this purpose. After a full and careful invertigation of all matters pertaining thereto, Mr. Polley reports that he has witnessed the Sewing Machines in the highest state of successful operation. He took occasion to examine various other Machines intended for this purpose, none of which will be a successful operation. The took occasion to examine various other Machines intended for this purpose, none of the successful operation. The took occasion to examine various other Machines intended for this purpose, none of the successful operation. FOR THE WEEK ENDING JANUARY 30, 1851.

BACON-The receipts of Bacon have been light during the

BEEF CATTLE-Prime stall fatted Beef commands about CORN-Sales of about 3000 bushels Corn, from Baltimore,

to 85 cents per bushel, according to quantity. COFFEE-Sales of 125 bags Rio Coffee, at 114 cents per lb.,

FLOUR-Sales of about 200 bbls. Baltimore Flour, mixed brands, at \$5 50 per bbl Our quotations are for store rates,

by the single barrel or more. HAY-Stock light. A few small lots arrived, and sold from wharf at 90 cents a \$1 per 100 lbs.

LUMBER-Some small sales wide buards and scantling at quotations. We hear of no sales flooring boards this week, but learn that they are worth from \$11 to \$11 50 per M. Molasses and Sugar-Received from Cardenas de Cuba, 280 hhds. Molasses; held at 20 a 22 cents per gallon, according to quantity. Also, about 34 hhds. from Porto Rico. which, we learn, is held at about 26 a 30 cents per gallon. according to quantity. Also, 23 hhds. and 70 bbls. of Sugar

from the same place, which has been taken by one house at a price not made public. The same article is now selling, in quantity to suit, at 6 a 8 cents per 1b. See table. NAVAL STORES-Our report of this day week left the Tutpentine market in a firm condition. Since then, an advance has taken place, and sales have been effected, up to the hour of closing, at an advance of 10 cents per barrel on soft, which brings it up to \$2 15; and on hard of from 5 to 20 cents per barrel, bringing it to \$1 30 per bbl. The sales of the week reach about 2,600 or 2,800 barrels, mostly at \$2 15 for soft,

and \$1 25 a \$1 30 for hard, per bbl. of 280 lbs. The market closed to-day at our highest figures, (though not so firm as for the past few days,) with but little arriving. Tar-Sales of about 567 barrels during the week, at \$1 30 a \$1 25, elosing to-day, with sales of 365 bbls. at latter price. Spirits Turpentine-Sales of about 700 barrels during the week, at 27 a 274 cents per gallon. Rosin-We hear of no sales. PORK-Fresh, but very little arriving ; selling at market; by the single hog, at 64 cents per 16.

POTATOES- Sales of Irish Planting Potatoes, from store, at \$3 50 per bbt. Sweet Potatoes selling in lots at 60 cts. per bushel. Retail price, 75 cents per bushel. SALT-Received from Charleston about 1800 sacks Salt : 1000 sacks taken at 80 cents, cash, and 800 sacks at 80 cents per suck, 90 days; and about 250 sacks affont, not sold. See

table for dealers prices. STAVES -Sales light. 8,000 R. O. Hhd. Staves at 815 25 Smixates-Sales light. Last transactions at \$1 75 per M. for Common Cypress.

TIMBER-The sales of Timber during the week have been light. We refer to our table for prices, which will be found as near correct as can well be made. WHISKEY-Sale of 50 bbls. Rectified Whiskey, at 30 cents

TUST Received and For Salt at L. H. Plette's Books J store. The most extensive and splendid assortment of Valentines and Envelopes ever before offered in this place; consisting of Gift; Flowered, Tinted and Plain Comic and Sentimental Valentines, Envelopes, and Valentine Writers: To the Ladier. Lovely in form, lovelier still in mind-

Always disposed, like angels, to be kind, Delighting man by countless winning ways; Inspiring love, an ardent flame you raise; Extend your favor, bend at Cupid's shrine; Seek Hymen's Temple with your Valentine: To the Girls. Letters but faintly trace at best

The thoughts that fill a lover's breast; And lips but feebly can impart
The pure affections of the heart;
How then shall you that love reveal, How shall you make the chosen thine ? Why, by sending a Valentine.
